

The Isaiah House is the I-61 missions base in Managua, Nicaragua, where we host a Holistic Missions Training Experience. This 10-day trip radically inspires teams to be agents of change in a hurting world; equipping them with practical skills and the tools they need to follow God's call.

Teams are trained in seven areas of global crisis, through a combination of classroom learning and in-the-field experience. The training offers a taste for what God can do in and through their lives. We introduce different avenues for serving the poor, both around the world and in local communities.

We inspire participants not only for a life of missions, but also to missionally live out God's heart in their everyday lives. *Contact us through our website and learn how your church can book a team at our Nicaragua training base.*

7 Areas of Crisis

- World Hunger
- Poor Health & Disease
- Human Injustice
- Undeveloped Leadership
- Environmental Decline
- Educational Inequalities
- Spiritual Confusion

"The most valuable part for me was being able to learn about the issues and connect them with actual hands-on experience. This made a lasting impact."

"I have never seen poverty like I saw there. My life will never be the same..."

"The quality of the training was far above what my expectations were. The I-61 Nicaragua Staff was amazing."
